Wireless Resident Monitoring Solutions

TOMORROW'S TECHNOLOGY AVAILABLE TODAY

Wanderer Monitoring and Nurse Call Systems

As a key decision maker in the senior housing market you need the assurance that the resident monitoring system that you would recommend provides cutting-edge technology with unmatched security features.

HomeFree offers a single wireless network for all resident monitoring needs - giving residents freedom, dignity and security. Our solutions incorporate the following features:

- Resident identification and location
- Secondary layer of security
- Complete system supervision
- Watch removal alerts
- Open architecture
- Modular expandable network

Driving innovation in resident monitoring solutions.
